“Why Mentor”
Welcome to Qatar SportsTech, the leading sports accelerator in the middle east. The program is operated by Startupbootcamp, one of the leading accelerator programs in the last decade.

- One of the core values of our Qatar SportsTech program is connecting startups with mentors, who volunteer to work with startups.

- For us, our mentors are esteemed members of a close-knit community. We work hard to make mentors feel valued and important.

- We connect mentors with startups based on relevance. We do not connect for the sake of connecting. We will safeguard mentors from being connected to less relevant mentors and vice versa.

Why do mentors mentor (1/2)?

Mentors take part in our Qatar Sportstech program, for a variety of reasons. Some motivations have been stated below:

1. Give back - "paying it forward" - because someone typically helped them get off the ground as well.

2. Sourcing investments - often angels and VCs mentor to both add value and invest in teams.

3. It’s fun - mentors often find working with startups as a rewarding, fun, and invigorating experience.

4. Testing new ideas - they can test ideas that are not possible in their own (corporate) environment.

5. Help the Ecosystem - mentors are often motivated to help improve their local startup community.
6. **Networking** - connecting with other mentors is typically overlooked, but is often an extremely important and a reason to continue mentoring.

7. **Source Innovation** - mentors look at startups as the cutting edge, and want to 'peek into the future'

“One of the greatest values of mentors is the ability to see ahead what others cannot see and to help them navigate a course to their destination.” — John C. Maxwell
Mentor Expectations

How many startups will I mentor?

When becoming a mentor for Qatar SportsTech, we will connect based on relevance of skills, expertise, industry or network. We do not follow the ‘mentor overload’ protocol- we wish for the mentors to be connected with relevant, individual teams that have a specific need that fits with the mentor’s profile.

How much time will I be mentoring?

This completely depends on the relation with the teams. We have seen mentors become advisory board members, we have seen mentors only connect once with a team. Relations and relevance can not be forced- if the ‘connection’ is there, it will be both mentor and startup determining how you would take the relation forward. Both need to be open and transparent about this from scratch.

Can I reach out to the startups as well?

Of course! We encourage startups to meet with many mentors, and we encourage mentors to engage with many startups. The ultimate goal is a mutually beneficial relationship that will only grow in the future.
We distinguish 2 type of mentors. Be the one that fits with your goals/ambitions
